To Nursing Department Chairperson:

Jessica Foster was employed as a part time nursing clinical/lab instructor in the Associate Degree Nursing program at Fayetteville Technical Community College from January to May 2015. She is an intelligent, motivated, and excellent nursing instructor on a medical unit. Jessica enjoys teaching and is a multi-tasker. She is more than capable of instructing and managing large and small groups of students. She was responsible for two different clinical groups of 7-8 first year second semester. She also took the groups to Simulation Labs where she was able to assist the students to see their strengths and areas of improvement.

I would not hesitate in recommending her for any nursing education position. Jessica loves teaching and is very concerned about the education of nursing students. She is a hands-on nurse who is very professional, dependable, responsible and reliable. She is also very punctual and expects the same from others. Jessica has decided to continue teaching while going back to school to further her own education. Jessica's contributions to the nursing profession as well as to the community make her an excellent asset to your university. I would love to work with Jessica again in the future.

If you would like additional information about Jessica, you can telephone me at (910) 678-9875 or via email at penistoj@faytechcc.edu.

Sincerely,

Judy Peniston-Keys, RN, BSN, MSN, WHNP, RNC-OB, CNE
